**The Goal**

- 10 saints to migrate to each of the four cities

**Who**

- Especially the younger working saints
- Students

**The Way**

- By much personal prayer and with companions
- Through fellowship with the leading ones in your current locality
- Through fellowship with the leading ones in the GTCNC cities

**The move of the whole Body**

- By prayer
- By giving
- By going

Because of our burden for gaining the typical local Americans (Caucasians, Hispanics, and African Americans), we ask that those considering moving to one of these cities come with the purpose of heart to gain the typical local people. We look to the Lord for some who are comfortable being all things to all men for the gaining of the typical local Americans and for some willing to be trained to care for and gain these ones.
